Thank you for supporting Sunnyfield

Sunnyfield has been supporting adults and children with intellectual disabilities for 74 years and we are passionate about creating choice, providing opportunities and helping build skills for life.

Our Pre/Post School to Employment Transition program provides tailored assistance for people with disability aged 16 and over who are studying, finishing school, or seeking to build essential life and employment skills. Through a personalised blend of transitional supports, our experienced staff work closely with each participant to understand their goals, interests, strengths, and abilities. We support young people to build independence, prepare for the workforce, and develop practical life and workplace skills, empowering them to take confident next steps, whether that means securing meaningful employment, pursuing further education, or training, or strengthening connections within their community and with peers.

All funds raised will go towards our new Western Sydney Community hub that will benefit local clients and our Employment Transitioning students.
