Clients enjoying their new
vehicles.

Out and About!

Thanks to the generosity of our donors, in the 2018-19 financial year, Sunnyfield bought three new vehicles to help support and transport clients.

Dedicated transport is essential for people with disability who can't access public transport. It enables them to get to and from work, participate in group activities, explore their local communities and do regular activities like weekly shopping or visiting friends.

While NDIS funding provides for staff and support costs, it doesn't provide enough for the cost of vehicles.

Sunnyfield is committed to providing every Shared Living home and Community Services Hub with a vehicle so clients can have the freedom and mobility to live the lives they choose and feel connected within their communities.

This would not have been possible without the support of our donors – Thank you!
