

SUPPORT COORDINATION

Registered
NDIS
provider

Sunnyfield
disAbility Services

SUPPORT YOU CAN TRUST

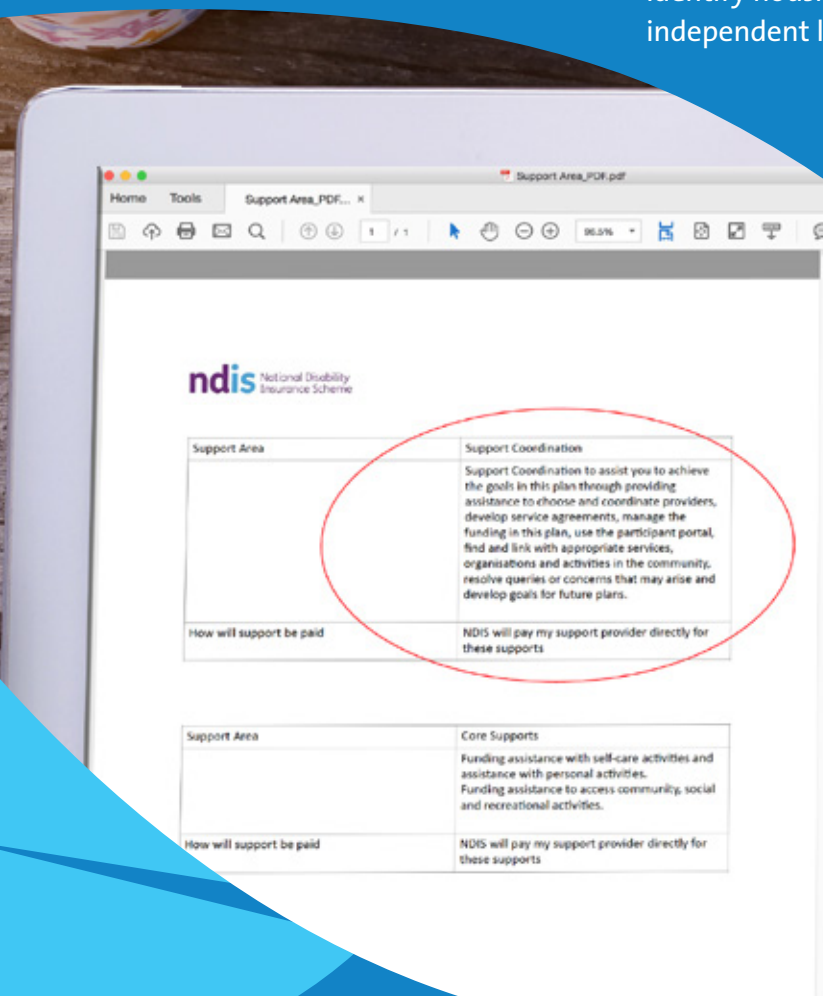

Support Coordination is designed to support participants and families to get the best outcomes from their NDIS Plan and build capacity to manage their NDIS Plans independently.

Sunnyfield's Support Coordination team works in consultation with participants to optimise the usage of their NDIS funds by advising them about the flexibility within their plans and by connecting them to a range of service providers based on individual needs and goals.

Not every NDIS participant is funded for Support Coordination, but participants can ask for it in their NDIS planning meetings.

Support Coordination supports you to

- Be more informed about how your NDIS funds can be utilised across NDIS registered and mainstream supports
- Navigate the NDIS marketplace and connect with disability and allied health service providers as well as mainstream organisations
- Build capacity to exercise choice and control to live the life you want
- Provide support in the event of a crisis or change of circumstances
- Identify housing solutions for shared independent living if your housing needs change

Sunnyfield's Support Coordination team works with you to

- Identify and present a range of suitable options for you in the NDIS marketplace
- Source quotes and coordinate Service Agreements with service providers of your choice
- Monitor your NDIS plan to ensure your NDIS funds are utilised effectively
- Liaise with your service providers to ensure services are being delivered as agreed and assist in resolving service issues if they arise
- Provide the NDIA with progress reports and prepare for your plan review meetings
- If relevant, support your interactions with other government services systems, in particular health, child protection, mental health and justice

SUPPORT COORDINATION HAS MADE OUR LIVES AND BEN'S LIFE A LOT SIMPLER AND EASIER. 🌿

Samantha, Ben's sister

Ben and Samantha's story

Ben and Samantha met with Sunnyfield's Support Coordination team to discuss Ben's options and make the most of his NDIS funding. Together they discussed Ben's goals of improving his communication, building his physical fitness and broadening his life experiences through independent travel. The Support Coordination team developed a support plan and package to support Ben's needs and took care of all the paperwork.

Ben now has regular speech pathology visits for the first time since high school. He enjoys regular bushwalks and bike rides in his spare time. Best of all, with the assistance of Support Coordination, Ben has used his NDIS funding to travel to the Blue Mountains and take an 8-day Tasmanian holiday!
